

# Introducing the Ultimate Outreach Ministry Enhancement Program "OUTREACH CONNECT"

The "Outreach Connect" administrator's site. Your personal sites will be customized with your church's logo and information just as pictured below.

Providing Church Administration and Software Solutions

- Outreach Ministry Management Software
- Church Management Software
- Website Services
- Telecommunications Administration

Behold, I say to you, lift up your eyes and look at the fields, for they are already white for harvest! <sup>36</sup> And he who reaps receives wages, and gathers fruit for eternal life, that both he who sows and he who reaps may rejoice together. John 4: 35b-36 NKJ

The ultimate web based solution to an effective and successful church outreach ministry is now available at your finger tips. Outreach Connect is the first and only Web Based program of its type. It was designed to enhance any and all structured outreach ministry programs currently used by churches today. It consists of two custom designed login sites. One login site is for the designated church's outreach administrator, and the second is a login site for all outreach team members. The purpose of the program is to provide churches with a more timely and efficient option in the distribution and follow-up response of church guests and prospects information. Our goal was to develop a web based program that would result in a more successful church outreach ministry, and would be affordable for any size church. In our development we took into consideration and worked to provide a program that would be very user friendly to individual church members with little computer experience. However, we did not compromise the programs effectiveness and needed features to create the best program possible that would accomplish our goals, and your church's success in implementing our program.

**Try it FREE for 30 days, No cost or obligation for the first 30 days!**
